### INSTALCO

The manager felt that some of the questions were not appropriate for their sector of activity, and he told us the company was not allowed to disclose certain answers about the environment. We told him that if he made notes on the questions he had problems with, we would take these remarks into consideration when analysing the questionnaire.

### ROTSCHILD & CO

The company does not wish to reply to our questionnaire.

### SDIPTECH

Reminder sent on 14/06/2021. The person in charge replied on the pretext that he could not answer the questionnaire before the summer of 2021.

### WORD GROUPE

Reminder sent on 14/06/2021. The manager replied on 16/06/2021 to say that she had not yet had time to complete the questionnaire. To motivate her, we told her that the managers were very interested in their company and that they were eager to analyse their ESG data.
